

HP Certified Refurbished

Mindful choices. A world of difference.

HP Certified Refurbished computers are restored to manufacturer-grade conditions through HP's strict refurbishment process.

These computers are tested, cleaned, and repaired using 100% genuine HP parts to ensure high quality and reliability. They come with an original HP 1-year CCR warranty. HP Certified Refurbished computers offer a cost-effective and sustainable alternative to new devices, helping to reduce electronic waste and support corporate sustainability goal.

Offer exceptional value for money.

Reduce environmental impact and assist with regulations.

Provide confidence in the performance and quality of the devices.

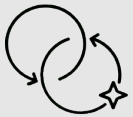

Advance corporate sustainability objectives.

Provide dependable warranty coverage and support.

Computers restored to HP's high quality standards. Powerful technology without compromise.

Multiple point inspection

A multiple point inspection process, including 13 cosmetic inspections and end-to-end cosmetic repairs, ensures HP's high quality standards are met.

Data wipe

Computers undergo data wiping procedures adhering to NIST standards, ensuring secure and complete data erasure from the devices.

Components replaced

If parts need replacement, only HP approved parts are used. Components are replaced based on test results and evaluation.

Cosmetic repairs

Devices undergo comprehensive cosmetic restoration, ensuring they look and feel like newer hardware.

Final quality inspection

Following restoration, each device undergoes a final quality inspection to ensure all functions are working properly.

Repackaging

All computers are meticulously packed in new boxes.
